WELCOME TO HOSPITALINE

Hospitaline is a user-friendly hospital management system designed to simplify the communication between patients and doctors. It offers an intuitive interface where users can:

- Book and manage medical appointments.
- Access and update medical records.
- View and handle doctor information.
- Manage and track medicine inventory.
- Export / Import the data in XML and HTML format.

INDEX:

1. MAIN MENU OVERVIEW
2. Register
3. Log In
 - 3.1. Functionalities for doctors
 - 3.2. Functionalities for patient.

MAIN MENU OVERVIEW

When you launch the program, the following menu will appear:

1. Register as a Doctor.
2. Register as a Patient.
3. Log in.
4. Exit.

REGISTER

```
Welcome, what do you want to do?  
1) Register as a Doctor  
2) Register as a Patient  
3) Log in  
4) Exit
```

AS A DOCTOR

To register as a doctor, choose option 1 from the main menu and provide the required information:

- Email
- Name
- Password
- Address
- Sex (M for Masculine, F for Female)
- Date of birth: you must write it in the exact format: year-month-day
- Department
- Years of experience.

AS A PATIENT

To register as a patient, choose option 2 from the main menu and provide the required information:

- Email
- Name
- Password
- Address
- Sex (M for Masculine, F for Female)
- Date of birth: you must write it in the exact format: year-month-day (YYYY-MM-DD).

To log in, select option 3 from the main menu and enter your registered mail and password. Depending on your role (doctor or patient), you will access the corresponding features.

FUNCTIONALITIES FOR DOCTORS

```
Hello Dr/a. diana, what do you want to do?
1) Appointments
2) Medical records
3) Medicine supply
4) Export medicines to an Xml file
5) Retrieve medicines from an Xml file (Hospitaline,
6) Export medicines to an HTML file
7) Change your password
8) Delete your account
9) Exit
```

1) APPOINTMENTS

```
Do you want to:
1) View all your appointments
2) View patients you have an appointment with
```

If you click **1) View all your appointments**, you will see all the appointments you have. If you don't have any appointments it will show "You have no appointments".

If you click on **2) View patients you have appointment with** it will show you those patients you have appointments with, if you have any it will show you "No patients have appointments with you".

2) MEDICAL RECORDS

Important: if no patients have appointments with you, you won't be able to see any medical record.

```
From this patients, do you want to:
1)View their medical records
2)Add a medical record
3)Modify a medical record
```

First all the ids of the patients of this doctor will be shown and then the doctor will have to choose whether to:

- 1) View their medical records
- 2) Add a medical record, you will have to introduce the **diagnosis**, the **treatment** and from the list of medicines available you will have to prescribe one to this patient.
- 3) Modify a medical record. It will ask you for the id of the patient and the id of the medical record you want to modify, then you can change the diagnosis, the treatment and the medicine prescribed.

3) MEDICINE SUPPLY

```
Do you want to:
1)View medicines of the supply
2)Add medicine to the supply
```

- 1) View medicines of the supply
- 2) Add medicine to the supply

4) EXPORT MEDICINES INFO TO AN XML FILE.

The information will be automatically stored in *Hospitaline/xml/MedicinesExp.xml*.

5) RETRIEVE MEDICINES INFO FROM AN XML FILE.

We will be able to retrieve all medicines that are in the *Hospitaline/xml/medicineImp.xml*.

6) EXPORT MEDICINES TO AN HTML.

The medicines will be automatically exported to *Hospitaline/xml/Medicines.html*

7) CHANGE PASSWORD

It will ask you your new password and then it will be changed.

8) DELETE ACCOUNT

Your account will be deleted from the database.

9) EXIT

```
Hello Diana, chose one option:  
1) Your appointments  
2) Doctors  
3) View your medical records  
4) Export information of your appointments to an Xml file  
5) Retrieve the information of your appointments from an Xml file  
6) Change your password
